

Operator Safety Agreement

- I understand that I am responsible for the equipment until Perry Hall Moon Bounce arrives to pick it up.
- I understand that while children are in the inflatable equipment, a responsible adult must be supervising.
- I understand that occupants shall not attempt to climb on the mesh (window) nets, as doing so may cause the inflatable to collapse.
- Safety and evacuation procedures in case of unit deflation have been reviewed with me.
- I will not allow anyone who is intoxicated or under the influence of drugs to utilize the inflatable, as serious injury may occur.
- I agree not to exceed the recommended number of riders or weight limit as marked on the side of the inflatable.
- I will ensure that all riders remove their shoes and any sharp objects before entering the inflatable. Sharp objects include eyeglasses, toys, jewelry, and any item that could scratch the unit or another rider.
- I understand that food and drinks are not allowed inside the inflatable, including gum.
- I understand that no kind of **spray string** is to be used near the inflatable because it can severely damage the vinyl.
- I understand that there is no smoking aloud in or around the inflatable unit and hot embers will burn a hole or create damage which I am liable.
- Unless the inflatable is specifically designed to be a water ride, the inflatable should not get wet.
- I will not allow riders to do flips, climb the netting or roof areas, or rough-house in the inflatable. I will remove riders who do not follow directions to ensure the safety of all riders.
- I will not allow riders to sit or play on the safety step. The step is NOT a bouncing platform.
- I understand that riders should be sorted by size to prevent injuries. Only children of approximately the same size should be in the inflatable at any time.
- I am aware of how the weather can affect the inflatable and I have reviewed the procedures and understand what to do in the event of bad weather (rain or wind).
- I understand that exposed appendages may rub against the side of the slide, in order for riders to avoid friction burns, riders must slide in a seated position, feet first, ankles crossed and arms crossed. Jumping and flipping from the top of the slide (if available) is not permitted and can cause injuries.
